

Founded in 2003 by Dr. Ashraf Sedhom, The Center for Oral and Reconstructive Surgery and Implantology in Aurora, Santa Fe Oral Surgery in Denver, and The Oral Surgery Surgery Center in Thornton were created with the vision to treat every patient with first-rate care.

Committed to providing quality care and exceptional attention, our four board-certified surgeons have an accumulative experience of over 100 years. We pride ourselves in our expertise and education as our team has both dental and medical training. Specializing in all aspects of oral and maxillofacial surgery, in addition to dento alveolar surgery, we focus on cyst and tumor management and reconstruction. As a team we cover three area hospitals taking pride in providing compassionate and comprehensive care.

After finishing dental school Dr. Sedhom went on to finish his residency in oral and maxillofacial surgery from California, his medical degree from Virginia, as well as fellowships in New Jersey and Philadelphia. Dr. Sedhom has numerous publications. He pays special attention to the under-served in our community by offering no charge surgery to those in need.

Open 6 days a week!
